Introduction:

This document presents an analysis of the **UNI Computer and Library Survey** given to students participating in advanced registration for the Fall 1997 Semester (March 31, 1997-April 25, 1997). 7578 students participated in advanced registration and completed the survey. Each student was asked to answer one of 20 randomly selected questions prior to registering. Over 80% of the students used the on-line registration system. The rest registered in person and were asked to respond orally. On average, about 375 students responded to each item. Items used in the survey focused on student perceptions of computer and library services at UNI.

The **UNI Computer and Library Survey** was developed by:

Garrett Bozylinsky	Associate Vice President for Information Technology
William DiBrito	Coordinator of Institutional Research
Sue Follon	Vice President
Patricia Geadelmann	Executive Assistant/Director of External Relations
Douglas Koschmeder	Associate Registrar
Dennis Lindner	Director of Information Systems
Gene Lutz	Director of Center of Social and Behavioral Research
Nancy Marlin	Vice-President and Provost
Steve Moon	Director of Network Services
Philip Patton	University Registrar
Robert Rose	Associate Director of Library Services
Herb Safford	Director of the Library

Methodology:

A master file containing student demographic data as well as responses to the survey was provided to the Office of Information Management & Analysis (IM&A) by the Office of Information Technology Services (ITS). Data were analyzed to show patterns of response by various demographic groups. These included: Class, College of major, Transfer status, and Ethnicity. Each group was then subdivided to contrast male/female responses.

Cautionary Note:

The student responses presented in this analysis should be considered to be indicative of potential issues rather than definitive statements. As such, all the responses and the comments presented should be examined in the total context of individual Colleges and Departments. It is the hope of the authors of the study that others will perform additional research on the issues raised in order to improve the total educational experience of students at the University of Northern Iowa.

Results:

Table I provides some general observations on the survey. These observations are intended to stimulate further examination and thought.

Table II presents a summary of responses to individual items.

Table III presents a commentary on **differences** in average responses found within various groups. This commentary is intended to draw the reader's attention to various patterns but is not meant to exclude the presence of other patterns or relationships. Items with relatively large differences in agreement were cited but were typically limited to three or less observations per item. The number of individuals in the sub-groups was considered but an absolute standard was not used. Thus the comments in this Table should be considered a starting point rather than definitive.

Finally, a detailed analysis of each of the 20 questions is presented. Differences in the percent of Males and Females answering "Yes" are highlighted as are differences in the percent of "Yes" responses found within categories. Please note also that the level of average responses, as well as differences in average response, may indicate issues for further analysis.

Table I – General Impressions

Please note that all relationships mentioned in this Table are drawn from the detailed analysis of individual items. The best general view of survey results is found in Table II that summarizes overall responses.

1) Student's perception of the adequacy of their exposure to discipline specific computer tools is mixed. Item 6: Do you believe you are being exposed to the current discipline-specific computer tools used by professionals in your chosen major? 49.87% of all students responded "Yes". 25.73 % chose "No", and, 24.40% stated that this statement does not apply . Responses varied by colleges ranging from Business with 67.53% responding "Yes," to Humanities and Fine Arts with 42.86% responding "Yes."

2) While students are generally satisfied with the quality of UNI's computing resources, some perceive problems with access to those resources. Item 3: Have you been generally satisfied with the computing and network resources available to you while at UNI? 82.68% of all students responded "Yes" to this item. However responses to **Item 4: Is access to on-campus computers and terminals connected to the UNI computer network sufficient between 8 AM and 5 PM?** (Percentage of "Yes" answers = 66.49%) & **Item 5: Is access to on-campus computers and terminals connected to the UNI computer network sufficient after 5 PM?** (Percentage of "Yes" answers = 50.66%) indicate that hours of operation, peak time access, and possibly modem access, are issues of concern. **Item 17: Can you easily access library resources by computer from outside the library building? ?** (Percentage of "Yes" answers = 48.80%)

3) Students perceive Library staff as friendly and helpful. Item 20: Are Rod library faculty and staff generally courteous and helpful to you? (Percentage of "Yes" answers = 87.23%). **Item 13: When you ask for library assistance, do you usually get a useful response?** (Percentage of "Yes" = 78.85%).

4) A large percentage of students report that they do not use several key library resources. (E.g., Library Instruction sessions, the Library Home Page and Inter-library loan services). Item 15: Have library instruction sessions (tours, classes, workshops) been helpful? (Percentage of "Does not apply" = 47.86%) **Item 12: Do you find the organization of the Rod Library's home page easy to use?** (Percentage of "Does not apply" = 42.08%) **Item 19: Does the inter-library loan service obtain materials you need quickly enough?** (Percentage of "Does not apply" = 55.88%)

**Table III – Differences in Percentages of “YES” Responses within Groups
Highlights**

Values cited refer to the percentage of a group answering “Yes” unless otherwise indicated.

1 Do you feel prepared to use and learn about technology in your chosen profession or field following graduation? Natural Science majors - 87.50% vs SBS majors – 75.44%; Business men 71.74% vs Business women 89.47%

2 Have you used computers as part of your coursework while at UNI? Business majors 96%; SBS 81.82%

3 Have you been generally satisfied with the computing and network resources available to you while at UNI? Business majors 77.55% - was the lowest level of positive response. This is in contrast to Business majors indicating the highest level of computer usage in coursework. Does this imply that use creates a more informed/critical opinion?

4 Is access to on-campus computers and terminals connected to the UNI computer network sufficient between 8 AM and 5 PM? Natural Science majors had the lowest level of positive response at 60.53% for majors; Other Ethnic 52.85% vs 67.42% for White Non-Hispanic.

5 Is access to on-campus computers and terminals connected to the UNI computer network sufficient after 5 PM? 38.00% of men answered “No.” 21.40% of women answered “No.” Overall satisfaction on this item is low.

6 Do you believe you are being exposed to the current discipline-specific computer tools used by professionals in your chosen major? 35.06% of SBS majors responded “No” to this item. Overall responses are quite low.

7 Does the e-mail software on the UNI computer network meet your needs most of the time? Around 80%% of respondents indicate “Yes” on this item with general agreement across groups.

8 Does the web browser software on the UNI computer network meet your needs most of the time? 29.63% of Natural Sciences majors indicated that web software “Does not apply.”

9 Do you have a computer for your personal use available during the school year? White Non-Hispanic 54.68% vs Other Ethnic 45.71%.

10 Have you received adequate training in using the UNI computer network to meet your study needs? Education men 95.24% vs Education women 71.21%

11 Does the library usually have the scholarly journals (periodicals) you need for your studies? Graduate students 56.52% vs an overall level of 67.11%. 24.07% of Natural Science majors chose "Does not apply."

12 Do you find the organization of the Rod Library's home page easy to use? 42.08% responded "Does not apply." This level of response was fairly typical across categories.

13 When you ask for library assistance, do you usually get a useful response? Business majors 67.39% answered "Yes" with 22.83% answering "Does not apply."

14 Is UNISTAR, the library's online catalog, easy for you to use? Freshmen with 66.67% and Transfers at 69.88% have relatively low levels of agreement. The average response is 74.54%. This may simply reflect a normal learning curve.

15 Have library instruction sessions (tours, classes, workshops) been helpful? 47.86% of the Total responded "Does not apply." This was fairly typical within categories. 70.48% of Transfer students, however, indicated "Does not apply."

16 Are you satisfied with the number of CD-ROMs to which the library subscribes? 58.89% answered "Yes" and 24.14% responded "Does not apply." This raises an overall question of awareness.

17 Can you easily access library resources by computer from outside the library building? 35.73% responded "No."

18 Would access to the World Wide Web from library workstations be useful to you? Freshmen had the highest level of positive responses with 75.86%. This may imply that students expectations are being raised by their high school experiences.

19 Does the inter-library loan service obtain materials you need quickly enough? 55.88% indicated "Does not apply."

20 Are Rod library faculty and staff generally courteous and helpful to you? 87.23% responded "Yes."

Do you feel prepared to use and learn about technology in your chosen profession or field following graduation?
